

High-Flo Liner Vac

High-Flow Liner Vac is a single stage vacuum / blower producing 400 scfm on open flow with a sealed pressure of water. The turbo style steel impeller compresses the air better than anything on the market. Other features include:

- Heavy duty long life motor, quiet performance (65 db).
- Built-in handle, rugged plastic housing with rubber feet.
- 400 cfm open flow, 9.0 inches sealed pressure.
- Water resistant on/off switch with 6.0 ft. grounded power cord.
- Protective screen on inlet and outlet.
- 4.0 inch friction fit inlet.
