

Air Injectors

Bath / Spa

Low profile air jets are ideal for bath tubs and portable spas.

Air jet bodies are available in tee and elbow design with 3/8" barb fitting for easy assembly with flex tubing. Air caps are available in a variety of colors to match and compliment the spa, or bath. Air caps press into the stem with friction fit and can easily be replaced in the field. Stems are available in high strength nylon or aluminum.

Optional drip proof check valve fits inside aluminum stem.

Mini Stainless Steel Air Injectors

Air Supply is proud to introduce our smallest air injector for bath and spas. The injector head is only 5/16" in diameter. Once installed on a tub, it is barely noticeable. Jets are made of high strength stainless steel for durability and corrosion resistance. Also available in a variety of powder coated finishes to match the tub. Colors included: White, Antique White, Bone and Biscuit.

Air jet bodies are available in tee and elbow design with 3/8" barb fitting for easy assembly with flex tubing.

Extra long air jets available for tubs with reinforced bottoms

Gunite Air Injectors

New Gunite Air Injectors glue to the inside of a 1.0" PVC pipe. Simply stub up 1.0" PVC pipe in the seat and foot well of the spa. The jet sleeve glues to the inside of the PVC pipe and is flush with the surface. Air injector heads are available in a variety of colors to match most pool finishes, and are available with 4, 6, or 9 hole configurations. Optional check valve is available.

Gunite Air Injectors turn you spa into a champagne glass filled with soft massaging bubbles. An easy and inexpensive feature you can offer your customers.
