

Max Air Jr.

The **Max Air Jr.** is our smallest blower. It measures only 5.5" in diameter by 9.9" in length. The **Max Air Jr.** is ideal for tight locations like bathtubs, or foot baths.

The **Max Air Jr.** offers:

- 1.5" tapered slip fitting
- Thermally protected motors
- Compact design can be installed vertically or horizontally
- Both inlet and outlet on bottom of blower for quiet performance
- Available with three speed control board, or air switch
